## COSMETIC TATTOO

**MICROBLADING - NANO** 2 hrs \$550  
Great for a natural look with ample hair. Microblading shapes and fills brows with hair strokes beneath, done close to your skin's surface for a crisp appearance after healing.

**COMBINATION BROWS** 2 hrs \$550  
Ideal for a natural look with abundant hair. Microblading enhances eyebrows by tattooing hair-like strokes underneath, close to the skin's surface. This results in a clean and crisp look after healing.

**OMBRÉ BROWS** 2 hrs \$550  
Suitable for all - whether you have little or lots of hair, oily or mature skin. Achieve beautiful ombré brows which lasts from 12-24 months based on your skin type.

**LIP BLUSH** 2.5 hrs \$690  
Enhances and outlines lip shape and color. Initial color fades up to 60%, resulting in a soft, natural look. Post-procedure, lips may be swollen and tight. Full healing takes about a week, with true color appearing around 6 weeks.

**TOUCH UP** 45 min \$100  
After your initial appointment, healed brows might have patches. During the touch-up, we fill in or fix any imperfections from healing. You likely won't need to return for 12-24 months after the touch-up.

**COLOUR BOOST** 1.5 hrs \$330  
Brownz Brow Bar clients should come in every 1-3 years for a brow refresher. Fading depends on skin type. A color boost injects new pigment, revitalizing your brows.

From \$50

## TATTOO REMOVAL

**SALINE REMOVAL** 1 hr \$160  
Saline tattoo removal uses a saltwater solution to pull tattoo ink from the skin. It's gentler, quicker, and more predictable than laser removal, effectively erasing tattoos.

**LASER REMOVAL** From \$50  
Laser tattoo removal breaks down ink in your skin. Your body then naturally eliminates the broken ink. Usually, 6-10 sessions every 6 weeks are needed for optimal results.
